WICHITA MARKETS

The Receipts of Stock at the Wichita Union Stock Yards for the Past 24 Hours Were: Cattle, light; Hogs, 501 Shipments: Cattle, None; Hogs, None,

WICHITA, July 20, 1892. The cattle receipts were light. But little trading was done and all sales were made at lower prices in consequence of the de-cline in eastern markets. Thin and grassy tows and beifers which have heretofore sold badly and at low figures are now absolutely unsalable. Buyers dont want shippers to understand this. Good killing stuff can be sold, although the demoraliz ed condition of eastern markets makes the

torkers, augs 8 yound oos and heifers, oos cows and beifers. REPRESENTATIVE SALES.

Hog receipts were moderate and the quality was generally good. The morket was active and all the offerings found ready sale at strong prices. Everything was sold by 3 o'clock and the market closed firm. REPRESENTATIVE SALES.

wing are the representative sales of hogs Price | No 5 to | 82 5 10 to | 6 5 5 5 9 5 20 6 Av. 203 204 104 106 Brief Mention

Hot weather and little life at the yards The cattle receipts were light again. The demoralized condition of the eastern markets is felt very strongly here. Harvy Grace of Cheney, the well known

and regular shipper, came in with hogs J. B. Kell, the veteran stockman and extensive shipper from Clearwater, had

hogs on sale today, H. Mills of Newton, T. E. Galliland of Winfield and E. Webb of Andover, all prominent stock shippers, marketed hogs today and found a good market.

The light receipts for Tuesday are ex-plained by the fact that hogs are getting scarce and that the farmers are too busy with their crops to pay any attention to the hog business.

These noted springs are located at Marion, Kan., fifty miles from Wichita, on the Rock Island road. For the benefit of the Wichita people who wish to spend a few days at this noted resort, the Rock lew days at this noted resort, the Rock Island will sell exension tackets Saturdays during the season, good returning the following Monday, at the low rate of \$2.00. After once visiting those springs you will visit no other. For further in formation please call at the Rock Island ticket office, 100 corner Main street and Douglas avenue. W. H. WISHARIT.

City Ticket and Passenger Agent, f Wichits, Kan. the meanest, most utterly selfish girl I ever saw. She never thinks of anyone

Dora-Do telli Nellie-Yes. I ran in there the other vening for a few moments, and while I was there Mr. Nicefello called. Well, it wasn't long before he requested her to play. He's passionately fond of music, you know. Well, what do you think that girl did? She asked him to come to the piano and turn the music for her, just so I couldn't talk to him .- N. Y.

States cruiser Iroquois, which arrived recently from Samoa, via Honolulu, does not hold a very high opinion of the Samoan climate, of which he says: The weather in Samoa is lovely between May and November, but the remainder of the year it is a wretched place to live in. Everybody on board suffered from the effects of the climate. Clothes and shoes became mildewed between evening and morning. Grass would grow well in twenty-four hours. The ship had to be partly rerigged before we left Samoa from the effects of the climate, which rotted the ropes and canvas."-San Francisco Examiner.

BRITAIN'S BUILDING.

First Foreign Structure at the World's Fair.

It Is Admirably Located and Will Be semble an Old English Country House-Some Points in Its Construction.

England's building at the fair was the first one to be begun by a foreign na-tion. It occupies an admirable site, being situated near the lake shore just at the southern extremity of the improved part of Jackson park. Some patriotic visitors to the exposition grounds have not failed to observe that the cement guns that poke themselves from the grim walls of the brick battle-ship Illinois are trained directly on Great Bris-ain's building. This is a mere coincidence, however, and Capt. Meade, who has charge of the stationary ship in which Uncle Sam's naval exhibit is to be made, says that it cannot be accepted as any indication of hostility between

the two great powers. Although Great Britam's exhibit is to be made in the big buildings of the exposition, the royal commissioners thought it desirable that they should contribute at least one building to the fair and in it establish their headquarters. The site chosen for this structure by Chief Burnham has been generously praised by the English commissioners Work on the building was commenced a month ago, under the direction of Col. Grover, detailed to remain in Chicago as the special representative of the royal commission until the building is

Photographs of the building show that the structure will resemble on old English country bouse, and that is what it is intended to be, a reproduction of the best type of half timber built houses of the sixteenth century. Many good examples of this type of architecture are still extant.

Speaking of the arrangement of the building Sir Henry said:

"It is intended to use terra-cotts somewhat largely in the lower story, with red facing and multioned windows. so that the building may be a typical example of an old English house upper portion will be of half timber construction, with overhanging and projecting gables. As the building will be seen from all points, each facade has had to be treated architecturally. The plan forms three sides of a quadrangle with the open side next the lake, in closed by a raised terrace with balnstrade. The center on the front or inland side will be recessed, with steps leading from both sides up the covered portico, which will open into a large center hall; off this will be on one side, large library and reception rooms, and on the other the secretary's office and the other rooms required for the work of the commission. On the first floor will be a large suite of rooms and offices. It is intended to fill up all the principal rooms with wall paneling and elaborate ceilings after the manner of some of the best English country

ART FROM GREECE.

After Considerable Trouble the American Minister Succeeds at Athens.

In a recent issue the Aeropolis. newspaper published at Athens, Greece, gives interesting information concerning the art exhibit to be made by that country. The paper says:

"To reproduce at Chicago our ancient works of art, not only as an exhibit worthy of Greece, but as a means of A line decree little graph n ap of the c showing all the streets and location of pu blic 1 vildings, etc., for sale at and this he has secured. The ephor general, Mr. Cavedeis, has already engaged skilled workmen from Italy, who are preparing the casts. Such an exhibit requires considerable expenditure which in the unfortunate condition of WANTED-A PERSON TO ASSIST IN OFFICE our finances, it was difficult to constitute of Shortnand and typewriting not required our finances it was difficult to grant; notwithstanding this Mr. Snowden succeeded in obtaining from the late ministry of Mr. Delyanni a promise of the required sum, but before this was consummated the ministry fell, and the work of a year seemed lost. Not so, however, for on the incoming of the present ministry the indefatigable representative renewed his efforts, and with complete success. The acceptance of the invitation carries with it a grant of three hundred thousand drachmas-a sufficient sum to cover the expense of producing casts and forwarding all exhibits to their destination. The traditional friendship between old Greece and young America undoubtedly inflaenced this decision, but it is also true that without the intelligence, energy, tact and popularity of the American minister Greece would not have been

represented at Chicago."

The United States patent office will exhibit at the world's fair as complete a collection as possible of the models of all the important American patented inventions, with a view of showing the great advance in the several which is due in no small degree to the encouragement and protection afforded by the patent system. Many of the desired models are not now in possession of the patent office, owing to loss by fire and the fact that in recent years models have not generally been required. The available appropriation is not sufficient to enable the office to make the missing models, and therefore the commissioner of patents has issued an invitation to inventors and manufacturers to loan such models to the office, with the understanding that they will be returned and that due credit will be given in labels and catalogues. The invitation is being met with hearty response.

RELIGIOUS AND EDUCATIONAL.

-A Christian can carry the most when he is full of praise.-Ram's Horn. -There are more Baptist ministers in Texas than in any other of the United

States. - 9.378.

-We can make it a Christian duty, not only to love, but to be loving-not only to be true friends, but to show ourselves friendly.-Harriet Beecher Stowe. -Prof. E. W. Scripture has been add-

ed to the Yale faculty. He is not exactly in the theological branch, but is to be at the head of the recently established psychological department. -Jacob Gould Schurman, Cornell's new president, is yet a few years under

forty, but a noted student. Twentyodd years ago he was a cleric in a grocery store on Prince Edward Island. -Within twenty years the number of Eaptist churchmembers in the city of New Haven, Ct., has more than doubled,

about 2,500 being now enrolled, the

First and the Calvary having over 700 -One of the Baptist societies in New York city is to build a church on the rear of a lot, with other buildings in front and a court-yard between. This idea is taken from several churches in London, which, though situated in the busiest portion of that city are comparatively free from noise.

-The late Mrs. W. T. Sherman and Miss Mary Gwendolen Caldwell have given more money to the Catholic church than any other women in America. Miss Caldwell has given the money through her private purse, Mrs. Sherman through subscription raised among her friends. Both women rereived from the pope special gold medals. -"University extension," is the phrase commonly used in these days,

and not always fully understood. The

Woman's Journal tersely defines it as

"a movement to extend some of the

advantages of university training to people who can not go to college, and it s chiefly carried on through courses of lectures given by professors and college graduates." -Humorous preachers have appeared among the delegates to the General Methodist conference, at Omaha. One colored delegate was so witty and glibtongued that the conference laughed whenever he rose, and on one occasion it "broke down with laughter" while he was speaking. A solemn spectator, who

nance did not like such displays, said that the conference semetimes made fun of very -God never wrought miracle to conrince atheism, because his ordinary works convince it. The care of postername | Ity is meet in them that have no posterity. There is a youth in thoughts as well as in ages. Virtue is like a rich stone, best plain set. Nature is often hidden, squietimes overcome, seldom extinguished. Force maketh nature more violent in the return. Virtue is like precious odors, most fragrant when

WIT AND WISDOM.

-Cheerfulness is an excellent wearing quality of the heart-Samuel

we bring up more gravel than pearls -

Leaving Wichita at 11:55 a. m. seriving all the men in the world, but I can't take enough for ope."—Parson Twine.

-In diving to the bottom of pleasures
